## CPCI Scholarship Program

Sustaining the long-term growth of the precast concrete industry requires a focused educational program to support future generations of engineers, designers and construction professionals.

The Canadian Precast/Prestressed Concrete Institute (CPCI) has a mission to expand the knowledge of students by disseminating ideas and information about the design, applications, manufacturing and use of precast concrete in Canada.

To facilitate and encourage continuous learning and education, CPCI is pleased to offer an annual scholarship program for graduate and undergraduate students interested in the field of precast or prestressed concrete.

# 2019-2020 ACADEMIC YEAR

## Undergraduate Students

**NEW!**

**The Undergraduate Scholarship is Now Open to Engineering Students in All Disciplines**

One \$1,500 (CDN) scholarship is available through each of the six CPCI Regional Chapters (British Columbia, Alberta, Manitoba/Saskatchewan, Ontario, Quebec and Maritimes) for Engineering or Engineering Technology students entering their final year of study in September 2019.

The successful candidates from each region will also be paired with a precaster in their geographic area to learn more about precast and prestressed concrete, precast operations, and opportunities in the industry.

This scholarship is open to students currently enrolled in a third year bachelor's program in Engineering at an accredited university program, proceeding in good standing into fourth year by the summer of 2019. The scholarship is also open to students enrolled in their final year of Engineering Technology at an accredited college.

## Graduate Students in Civil Engineering

CPCI will present one \$15,000 (CDN) scholarship for graduate or post graduate studies in the field of precast or prestressed concrete related research, design or construction for the 2019-2020 academic year. This scholarship is renewable for a second year pending successful performance review by the CPCI Graduate Scholarship Selection Committee. The CPCI Graduate Scholarship is open to Civil Engineering students who have completed a bachelor's or graduate degree from an accredited institute of higher education.

**Submit your application today!**

**The deadline for submissions is July 3, 2019.**

## How to Apply

To view the criteria and application procedures for the scholarship program, visit CPCI's website at: <http://www.cpci.ca/en/resources/academic/>.
