### NASCENT STUDENTS OF THE YEAR

Julia Paglia

Software Engineering  
DecisivEdge

“*Decisivedge has opened the doors for Julia Paglia whether as an intern next summer or a regular employee after graduation for we know she will be an asset to our company or any company she will join.*”

– Michael Pongan  
Lead Software Engineer

Ignacio Isola

Space Engineering  
Canadensys

“*From the moment that Ignacio joined our team, he has been an invaluable employee, participating and contributing to our work at a level that is years ahead of what would be expected from an undergraduate student. Over the past 5 years, I have worked with dozens of interns at Canadensys Aerospace. Several of these have been exceptional, but I would rank Ignacio at the top of even this elite group.*”

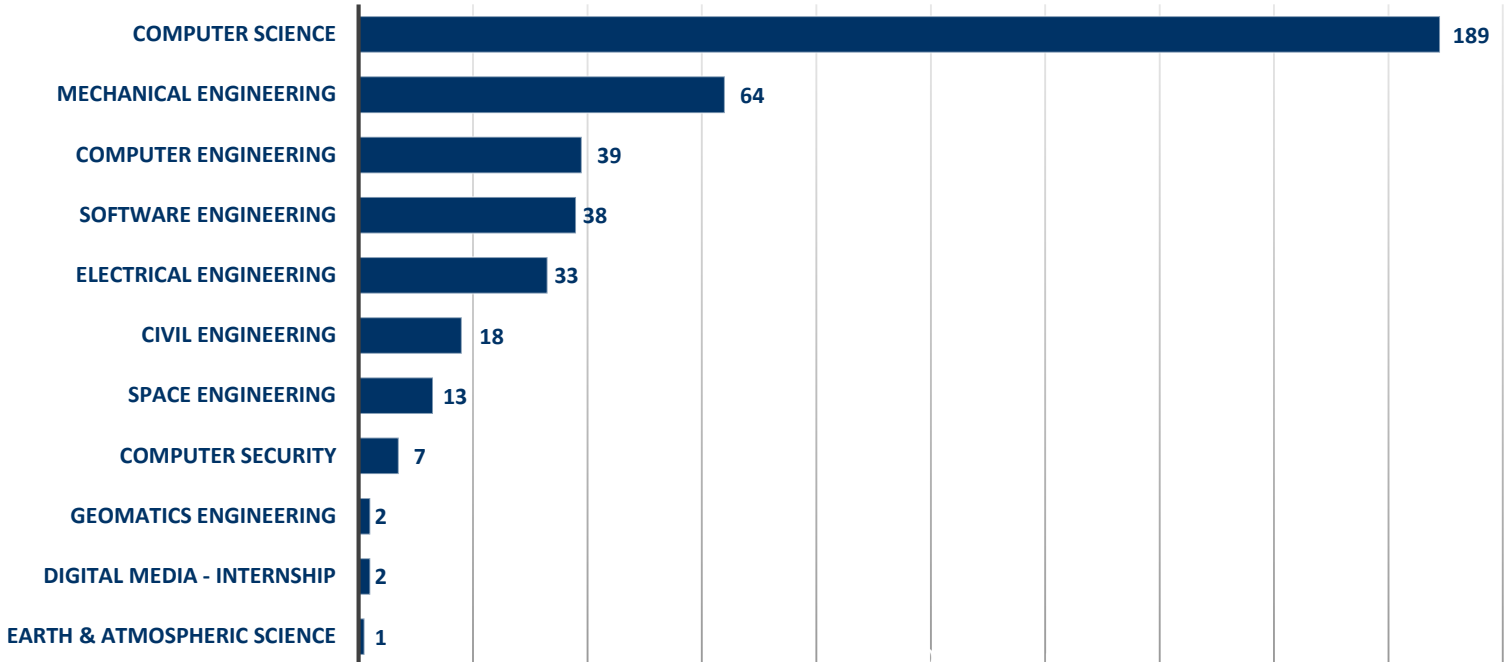

– Luke Stras  
Electrical Team Lead

### 2020 CO-OP EMPLOYER OF THE YEAR

KPM Power Inc. is a clean tech and alternative energy company who has hired a total of 11 students since the beginning of our partnership in Summer 2019. Students have been hired from Electrical Engineering, Computer Engineering & Space Engineering across 22 work terms. KPM Power Inc. has engaged with Lassonde students through sponsoring a Capstone Project, participating in Elle Hacks and co-op recruitment events. KPM Power Inc. has recently donated \$125,000 to Lassonde School of Engineering.
