<b>B. Electives:</b> Honours double major and major/minor programs automatically meet this regulation. It is recommended that students in the Honours Major, Honours Double Major or Honours Major/Minor programs, where computer science is the major, take a linear algebra course such as SC/MATH 1025 3.00 among their electives. Additional elective credits, as required, for an overall total of 120 credits.					
<b>C. International Component:</b> 30 required credits outside the major, consisting of: at least 18 credits of language study in one of the modern languages offered at York University, including the Advanced I university-level course in the chosen language; at least 12 credits of internationally-oriented courses chosen outside the major; at least one full term abroad as a full-time student at one of York University's exchange partners.
