| For a minimum total of 120 credits | $\square$ |  |  |  |  |

## A. General Education Requirement:

21 credits chosen from humanities, natural science and social science courses, with the constraint that at least 6.00 credits must be chosen from each of humanities, social science and natural science areas.

## B. Electives:

All BA degree candidates must choose at least 18 elective credits outside the major. These credits may not be part of the general education or any other named requirements (such as MATH requirements).
Additional elective credits, as required, for a minimum total of 120 credits.

TOTAL OCGPA (minimum overall GPA of 5.00 ( $\mathrm{C}+$ ) required to graduate with an Honours degree)

## EECS GPA Prerequisite:

Most 2000-, 3000-, and 4000-level EECS courses require a cumulative GPA or 4.5 or better over all EECS major courses in addition to other course-specific prerequisites. Note: "Major" courses are all EECS courses with second digit other than 5 and include LE/EECS 10283.00 (cross-listed to: SC/MATH 1028 3.00) and LE/EECS 10193.00 (crosslisted to: SC/MATH 1019 3.00).

[^0]Notes

[^0]:    Participation in the Co-op or internship option is highly recommended for students, but is not a degree requirement.
