NOTES FROM YOUR ACADEMIC ADVISOR

Students admitted for Winter are encouraged to complete all first-year Engineering courses during the specified terms. Doing so will ensure that you finish these courses before beginning your second year in September. Students who do not complete all first-year Engineering courses by September may need to extend their graduation timeline and could face challenges in course scheduling. Due to potential conflicts and prerequisite and corequisite sequences, it may not be possible to take first-year and upper-year courses concurrently.

Please find attached the Bachelor of Engineering (BEng) Complementary Studies General Education requirements for your reference. These Complementary Studies courses can be completed at any time between now and graduation.
