

MEMORANDUM

To: Winter 2021 Course Directors

From: Kevin Gingerich, Chair, Committee on Evaluations and Academic Standards (CEAS)

Subject: Academic Honesty Statement

Date: January 11th, 2020

I hope that everyone is having a successful start to the winter term during these challenging times. As we enter into the current semester, it is important to continue reminding our students of Lassonde's commitment to upholding the academic integrity of our courses.

A variety of communication options can help provide reminders to our students, such as course announcements and lecture slides. The CEAS Committee has developed an Academic Honesty Statement to be utilized for this purpose. This statement can be placed on your Eclass page, or at the beginning of each assessment. We recommend you ask students to provide an acknowledgment of this statement when submitting their work. The Lassonde Academic Honesty Statement is provided below.

I hereby confirm that this (exam/quiz/assignment) represents my own work. I confirm that it has been completed in adherence to the Senate Policy on Academic Honesty, without unapproved collaboration or the use of unpermitted aids or resources. I recognize the importance of academic integrity and understand that there is no tolerance towards academic dishonesty within the Lassonde School of Engineering. I am aware that any suspected breaches will be reported to the Academic Honesty unit within the Student Welcome and Support Centre, and may result in additional penalties in accordance with the Academic Honesty Policy.

If you have any questions, feel free to contact myself <kging@yorku.ca>, Garret Keown <gkeown@yorku.ca> (Manager of Academic Honesty), or Mitch Burnie <mburnie@yorku.ca> (Interim Assistant Dean, Students).
