Work-term: September 3, 2024 - August 22, 2025

Length of Position: 12-months

theScore is looking for an individual to fill a QA Automation Student position. Our ideal candidate will have some knowledge of best practices when it comes to mobile & web testing, and a solid background of software development concepts.

About the Work:

- Help maintain automation frameworks for Web and native mobile apps on Android & iOS platforms.
- Investigate test failures using root cause analysis during maintenance and planning efforts.
- Meet with QA Analysts and product managers to identify testing requirements.
- Identify, record, and track bugs.
- Participate in code reviews and pair programming sessions with other Automation Engineers.
- Stay up-to-date with new testing tools and test strategies.
- Other duties as required.

About You:

- Knowledge of the SDLC and software development concepts.
- Experience with the iOS and Android family of mobile devices.
- Experience automating tests for web applications.
- Experience using version control (**Git**), and unit testing frameworks (jUnit / Cucumber).
- Experience with GraphQL & RESTful APIs is considered an asset.
- Experience with continuous integration (**Jenkins**) is considered an asset.

- Knowledge of basic scripting (Bash / Python / Javascript) on macOS or Linux/Unix environments is considered an asset.
- Experience using Xcode/Android Studio is considered an asset.
- Experience with defect tracking tools (JIRA) and defect workflow is considered an asset.

What We Offer:

- Fun, relaxed work environment
- A voice. We're dedicated to open communication which empowers our employees to drive the company's culture
- A company that encourages a culture of inclusion and diversity
- Opportunity to work on large scale consumer-facing applications with millions of users
- Career growth. Mentorship from some of the brightest people in the industry

As part of the Digital Technologies Degree Program, you will work full time while spending approximately 20% of your time studying to earn your Bachelor of Applied Science in Digital Technologies degree with York University, Lassonde School of Engineering, Toronto, ON. This program welcomes applicants from all academic backgrounds looking to succeed in the Information and Communications Technology (ICT) sector.

Candidates residing in Ontario requiring special accommodation can email accessibilityoffice@thescore.com
