

JOIN LASSONDE'S LEADING FACULTY

Tenure Track and Contractual Opportunities

About York University's Lassonde School of Engineering

Lassonde is at the forefront of innovation and research in the fields of *Computer Science, Computer Engineering, and Software Engineering*. At York, **Canada's third-largest university**, Lassonde is home to over **5,000 future computer scientists, engineers and entrepreneurs** and boasts a vibrant community of more than **10,500 alumni**. York is also ranked among **Canada's Top 5 comprehensive universities and 35th globally** for its efforts to advance the United Nations' Sustainable Development Goals.

Our Computer Science program is ranked among the top 10 in Canada and top 200 globally, highlighting our commitment to excellence in both education and research. Our Electrical Engineering & Computer Science department is one of the largest in the university, with 87 faculty members pushing the boundaries of what's possible.

Impactful Initiatives

York University is pioneering important projects that bridge disciplines, such as Connected Minds, which explores how humans and AI will interact in the future. Backed by over \$300M in federal government funding, Connected Minds brings together 38 faculty members from Lassonde.

Opportunities to Shape the Future

Lassonde invites applications for tenure-track and contractually limited appointments to commence on July 1, 2025. We are seeking faculty members to contribute to our cutting-edge programs in areas such as cybersecurity, artificial intelligence, machine learning, theoretical computing, cloud computing, blockchain, and more.

Available positions include:

(All positions close on **November 15, 2024**)

Assistant Professor Computer Science (4 Positions)

Assistant Professor Computer or Software Engineering

Assistant Professor Cybersecurity

Contractually Limited Appointment Computer Science (3 Positions)

Contractually Limited Appointment Computer Engineering or Software Engineering

Why Join Lassonde?

At Lassonde, diversity and inclusion are core to our mission. Currently, 32% of our graduate students are women, a strong representation, but we're aiming even higher! We are building a welcoming community where creative minds are empowered to create solutions to the world's most pressing challenges. As an important member of our School, you'll have the opportunity to work not only with colleagues within Lassonde, but also across the entire university, contributing to transformative projects.

Don't miss this opportunity to advance your career while making a real difference in society, improving people's wellbeing, advancing social justice, and protecting the environment. For more details and to apply, scan the QR code below and explore the available opportunities.
